

modular WALLCLAD OVERVIEW

modularWALLCLAD

CARVART's modularWALLCLAD is a metal paneling system that can be freely combined to create geometric designs on the wall.

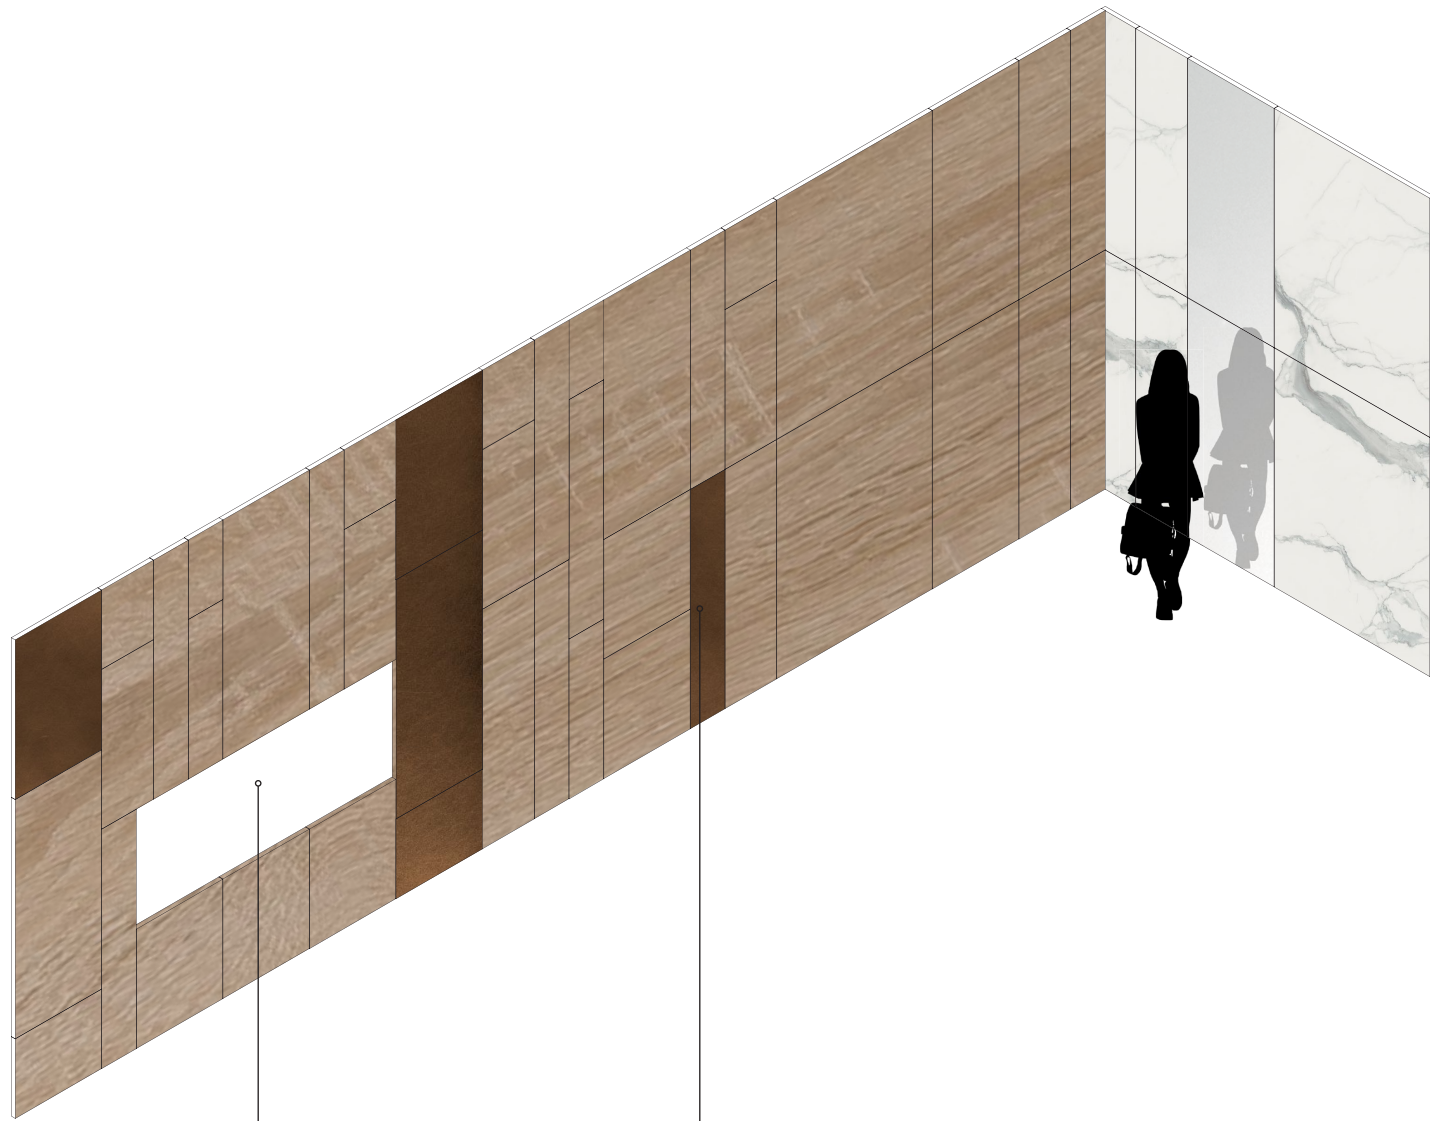

modularWALLCLAD features magnetic shelves and accessories that can be freely positioned on the wall panels to create aesthetically and functionally evolving compositions.

Lighting options enhance the creative design and add depth to any environment.

SPACER

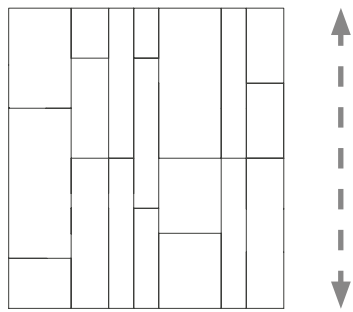

JOINT

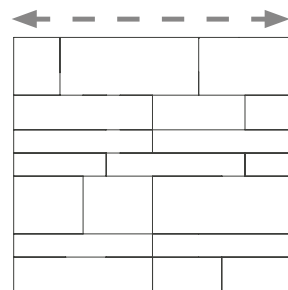

PANEL

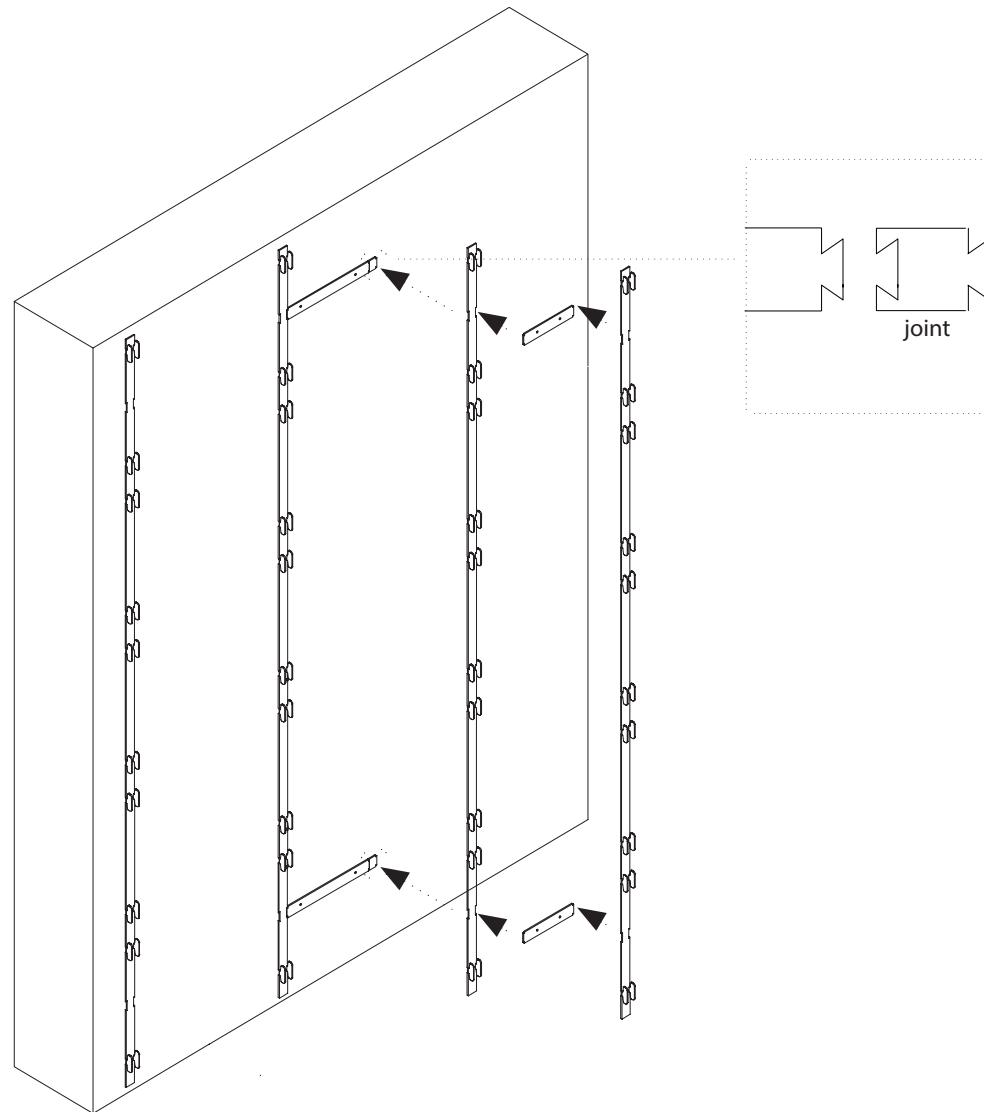

MOUNTING OPTIONS

VERTICAL

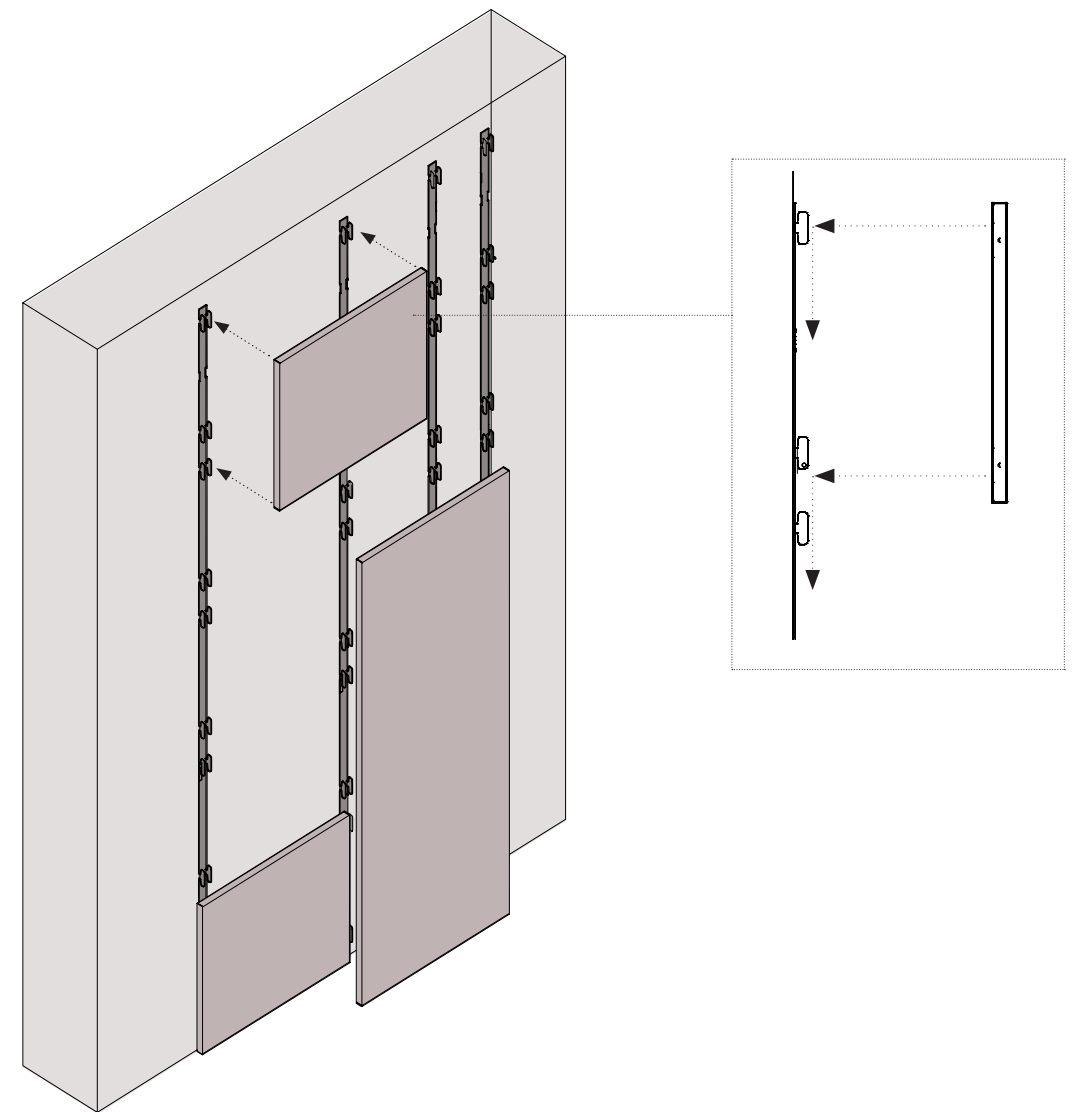

HORIZONTAL

STEP 1:

- Mechanically fasten mounting strips to finished wall using a leveler
- Insert pre-fabricated spacers into joints to correctly distance mounting strips to each other.

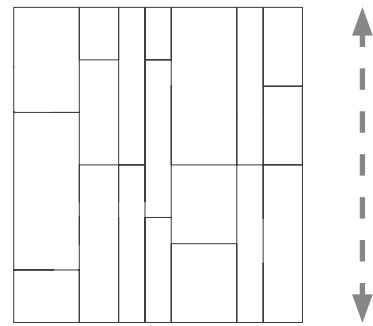

STEP 2:

- Push panels into mounting strips and push down. Installation complete.

How to Create your modularWALLCLAD

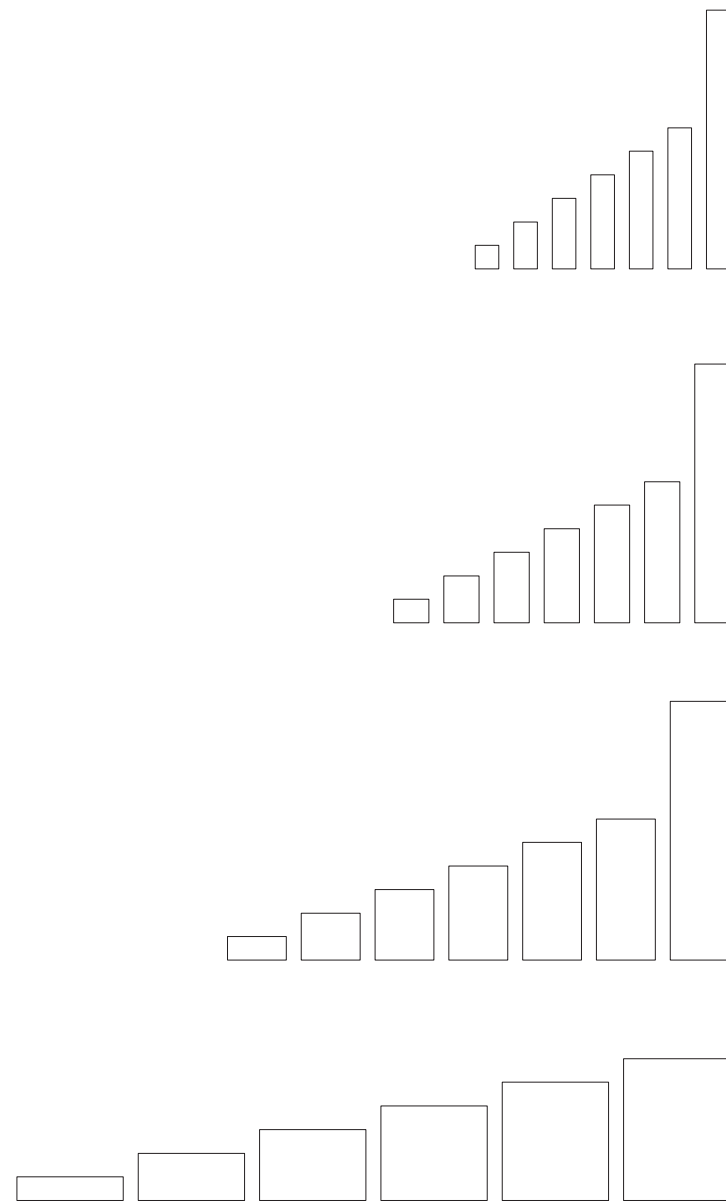

STEP 1

Provide opening overall size.
 Note: System is calculated in modular millimeter sizes.
 Tip: Convert sizes to mm for easy calculations.
 (Conversion to inches shown for reference on panel sizes page)

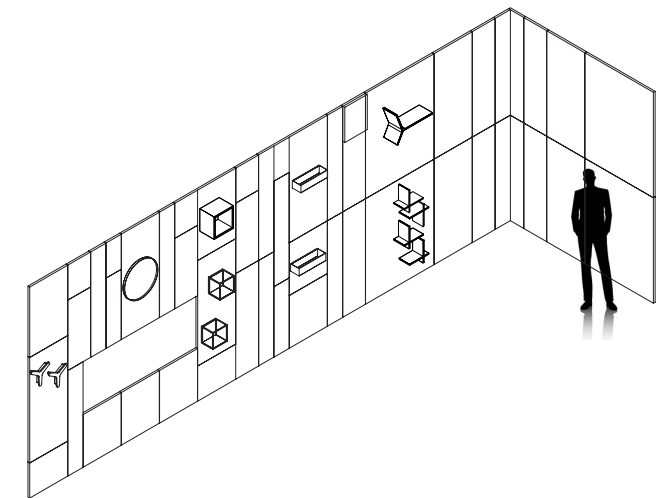

STEP 2

Create pattern with standard sizes

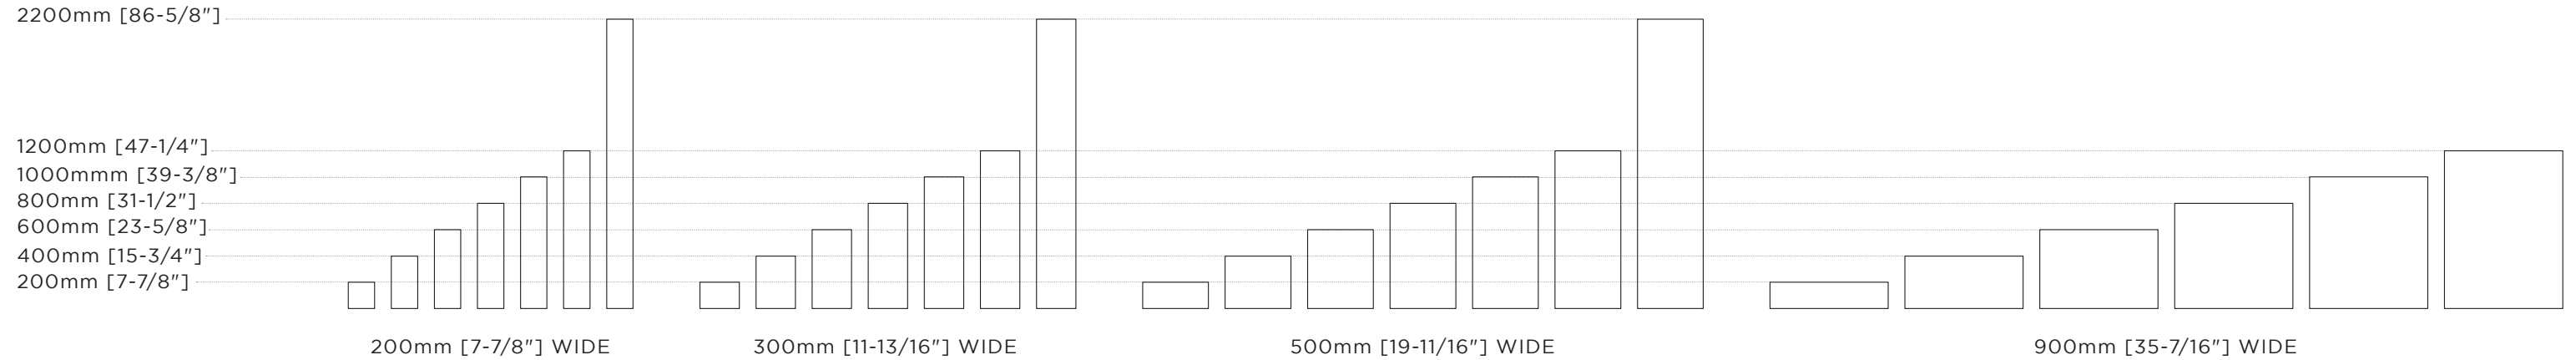

STEP 3

Build specification code
 1. Panels
 2. Accessories

Lighting Panels Wiring

Wire together LED Light Panels with low-voltage wires, and connect to power transformers. Conceal components and wiring behind panels.

COMPONENTS

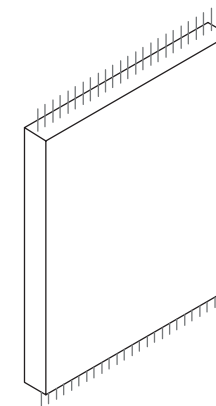

Simple, industry standard, low voltage components, wired to building power. Provide CARVART with your electrical design considerations for recommendations on installation.

12 VOLT DC POWER SUPPLY
100V - 240V AC to 12V DC LED Low Voltage Transformer. IP 67 Waterproof Converter Constant Voltage LED Driver for Lightings (30 Watts)

WIRE CONNECTIONS
Low voltage pin connectors for easy installation. No soldering components.

LED LIGHT PANEL
Choose from a variety of different fixed light panel options that use low voltage LEDs

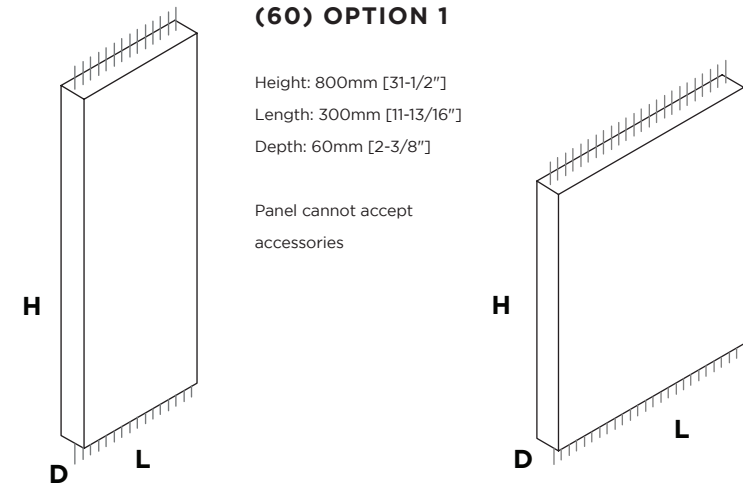

US POWER PLUG
Plug directly into standard 110/120V U.S. standard building power.

lightPANEL

CY--

Fixed LED light panel with diffused light from the top and bottom of the panel.

PANEL ACCESSORIES

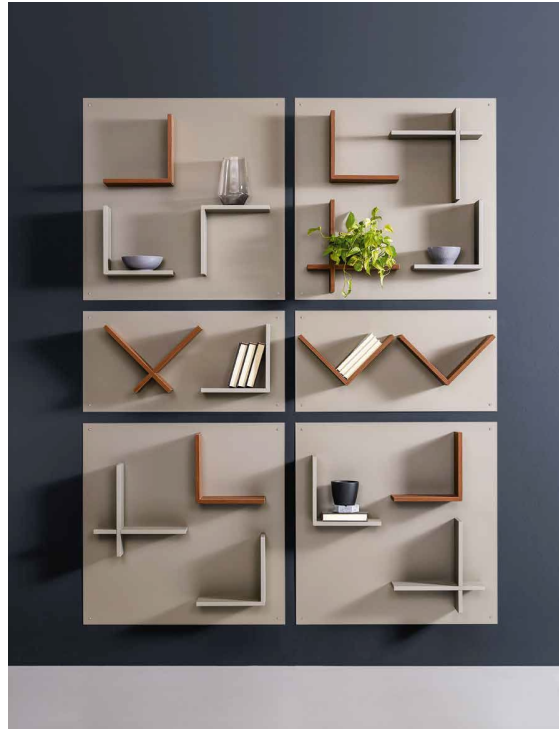

Magnetic Accessories

Combine modular WALLCLAD materials with beautifully designed accessories for near infinite combinations.

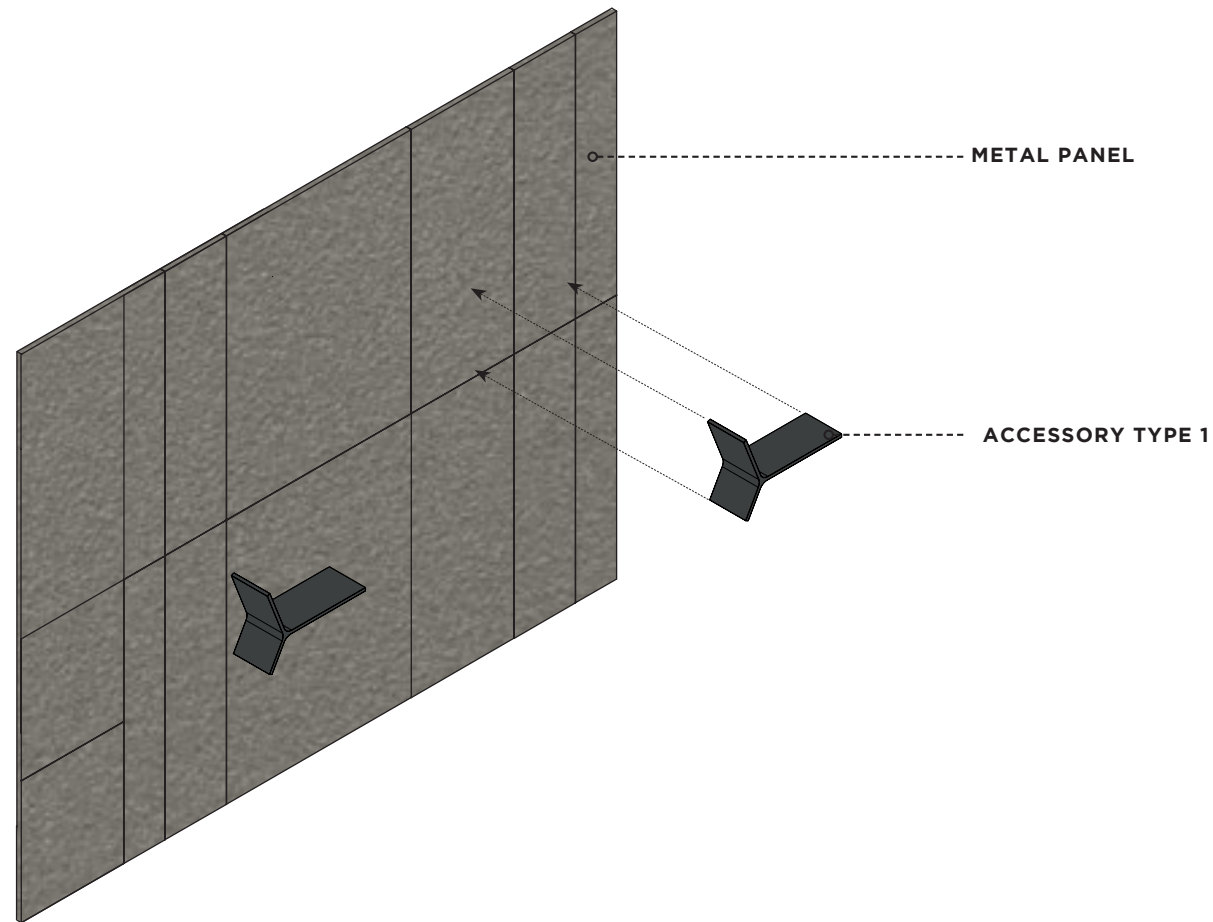

Magnetic Accessory Types

modularWALLCLAD accessories attach magnetically using rare earth magnets. To ensure an extremely strong connection, accessories are broken down by magnet type. Type 1 accessories fasten strongly to metal panels, while Type 2 increases magnetic strength to account for varying material thicknesses by adding more, and stronger, magnets.

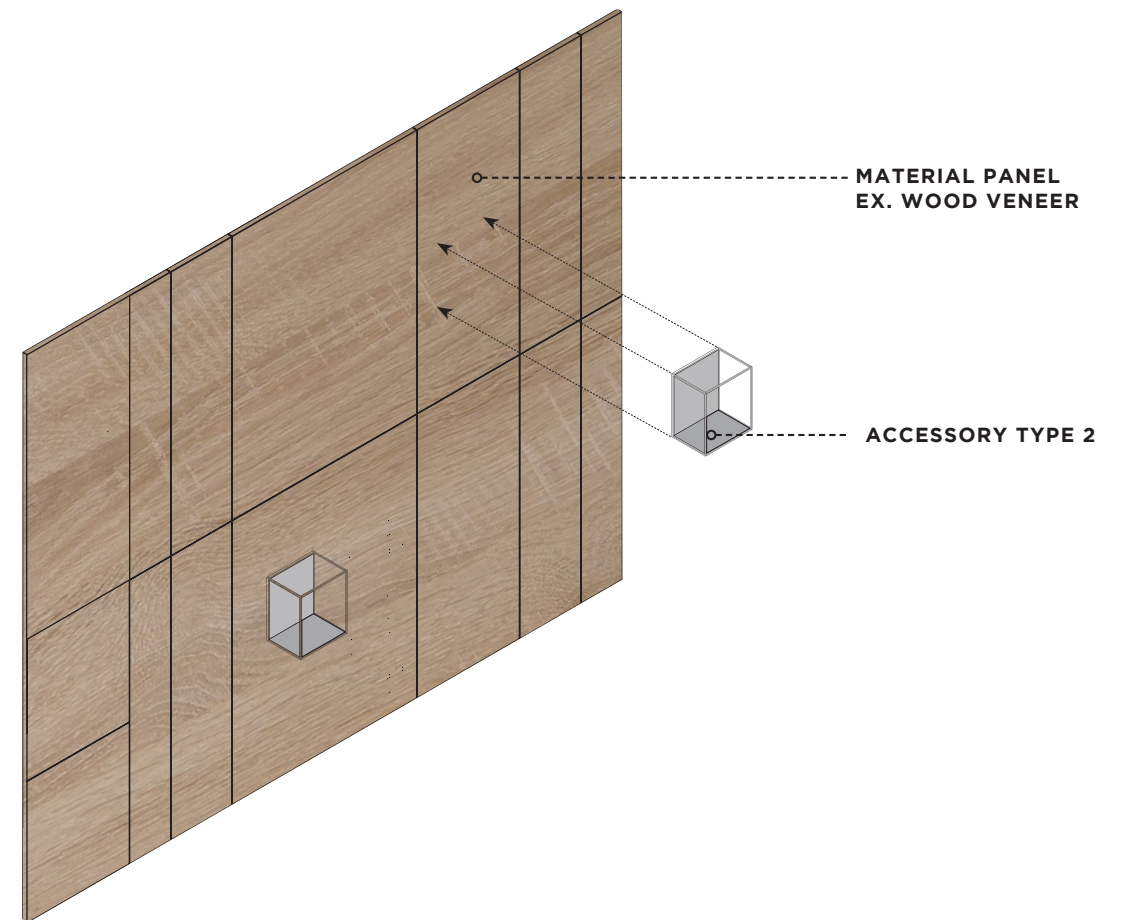

TYPE 1 ACCESSORIES

Accessories that attach to metal panels

TYPE 2 ACCESSORIES

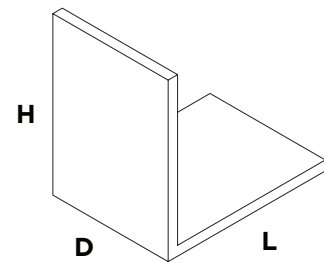

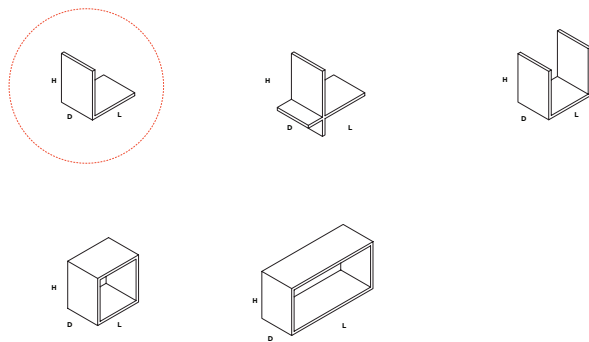

Accessories that attach to panels of varying materials (veener, ceramics, glass, CHPL).

How to Specify Accessories
