

glassLOCKERS > As modern office designs have shifted to a higher use of benching and desking application for the workforce, the availability of personal storage has decreased along with it. CARVART glassLOCKERS help solve the problem of where an individual can keep personal belongings in a centralized, safe and image-appealing place. Select from a wide range of configurations offering ample full-height solutions or combinations of smaller compartments. Crafted in high durability phenolic casework, the cabinetry fronts are unique aluminum framed glass doors that make a statement of high-quality modern design. When your facility requires personal storage accommodations, the CARVART glassLOCKERS deliver in ways no others can.

Short, Triple

2-Tier
Overall size w/ base:
37-3/4 (H) x 47-1/4 (W) x 19-13/16 (D)
1 Door @: 17-3/4 (H)

**Base to be 2-3/8" height and provided in lengths to accommodate various width configurations and combinations

**Locks to be either typical Soema cylinder or Numeric Lock

Surfaces

Smooth (S) is the most common characteristic of clear glass, prominent in all aspects of everyday life.

- Writable with erasable markers.
- Normal expected glare and fingerprinting.
- Reflective.
- Non-oil absorbing.
- Suggested for horizontal and vertical applications.
- Cleans easily with common glass cleaners.

Opaque

Etch (E) is a smudge-proof glass surface that is slightly-abraded and allows for a high degree of light transmission. Its pleasant diffusing of light and imaging through the glass can aid privacy in environments.

- NON-Writable.
- Glare and fingerprints are minimized.
- Uniform frosted appearance.
- Non-oil absorbing.
- For horizontal and vertical applications.
- Cleans easily with common glass cleaners at a more occasional rate than Smooth glass.

Functions

Non-magnetic (NONMAG)

**Opaque
