Surfaces

Smooth (S) is the most common characteristic of clear glass, prominent in all aspects of everyday life.

- Writable with erasable markers.
- Normal expected glare and fingerprinting.
- Reflective.
- Non-oil absorbing.
- Suggested for horizontal and vertical applications.
- Cleans easily with common glass cleaners.

Opaque

Etch (E) is a smudge-proof glass surface that is slightly-abraded and allows for a high degree of light transmission. Its pleasant diffusing of light and imaging through the glass can aid privacy in environments.

- NON-Writable.
- Glare and fingerprints are minimized.
- Uniform frosted appearance.
- Non-oil absorbing.
- For horizontal and vertical applications.
- Cleans easily with common glass cleaners at a more occasional rate than Smooth glass.
