**WALLS & DOORS**

CARVART®

LUCONI

CARVART's glassWALLS selections provide unique space-dividing solutions in the form of both demountable (wall-mounted and free-standing) and movable wall systems. Sophisticated, minimalist aesthetics combined with purposeful function. With framed and frameless glass as well as single and double-glazed options, you can choose the system that is right for your design expression.

#### **Elegant Design**

CARVART's office front systems offer unparalleled elegance for the modern facility using low-profile frames and minimal glass-to-glass joinery.

#### **Effortless Installation**

Dry-glazed assemblies and components like adjustable levelers make installation easy and effortlessly compensate for imperfections in building conditions.

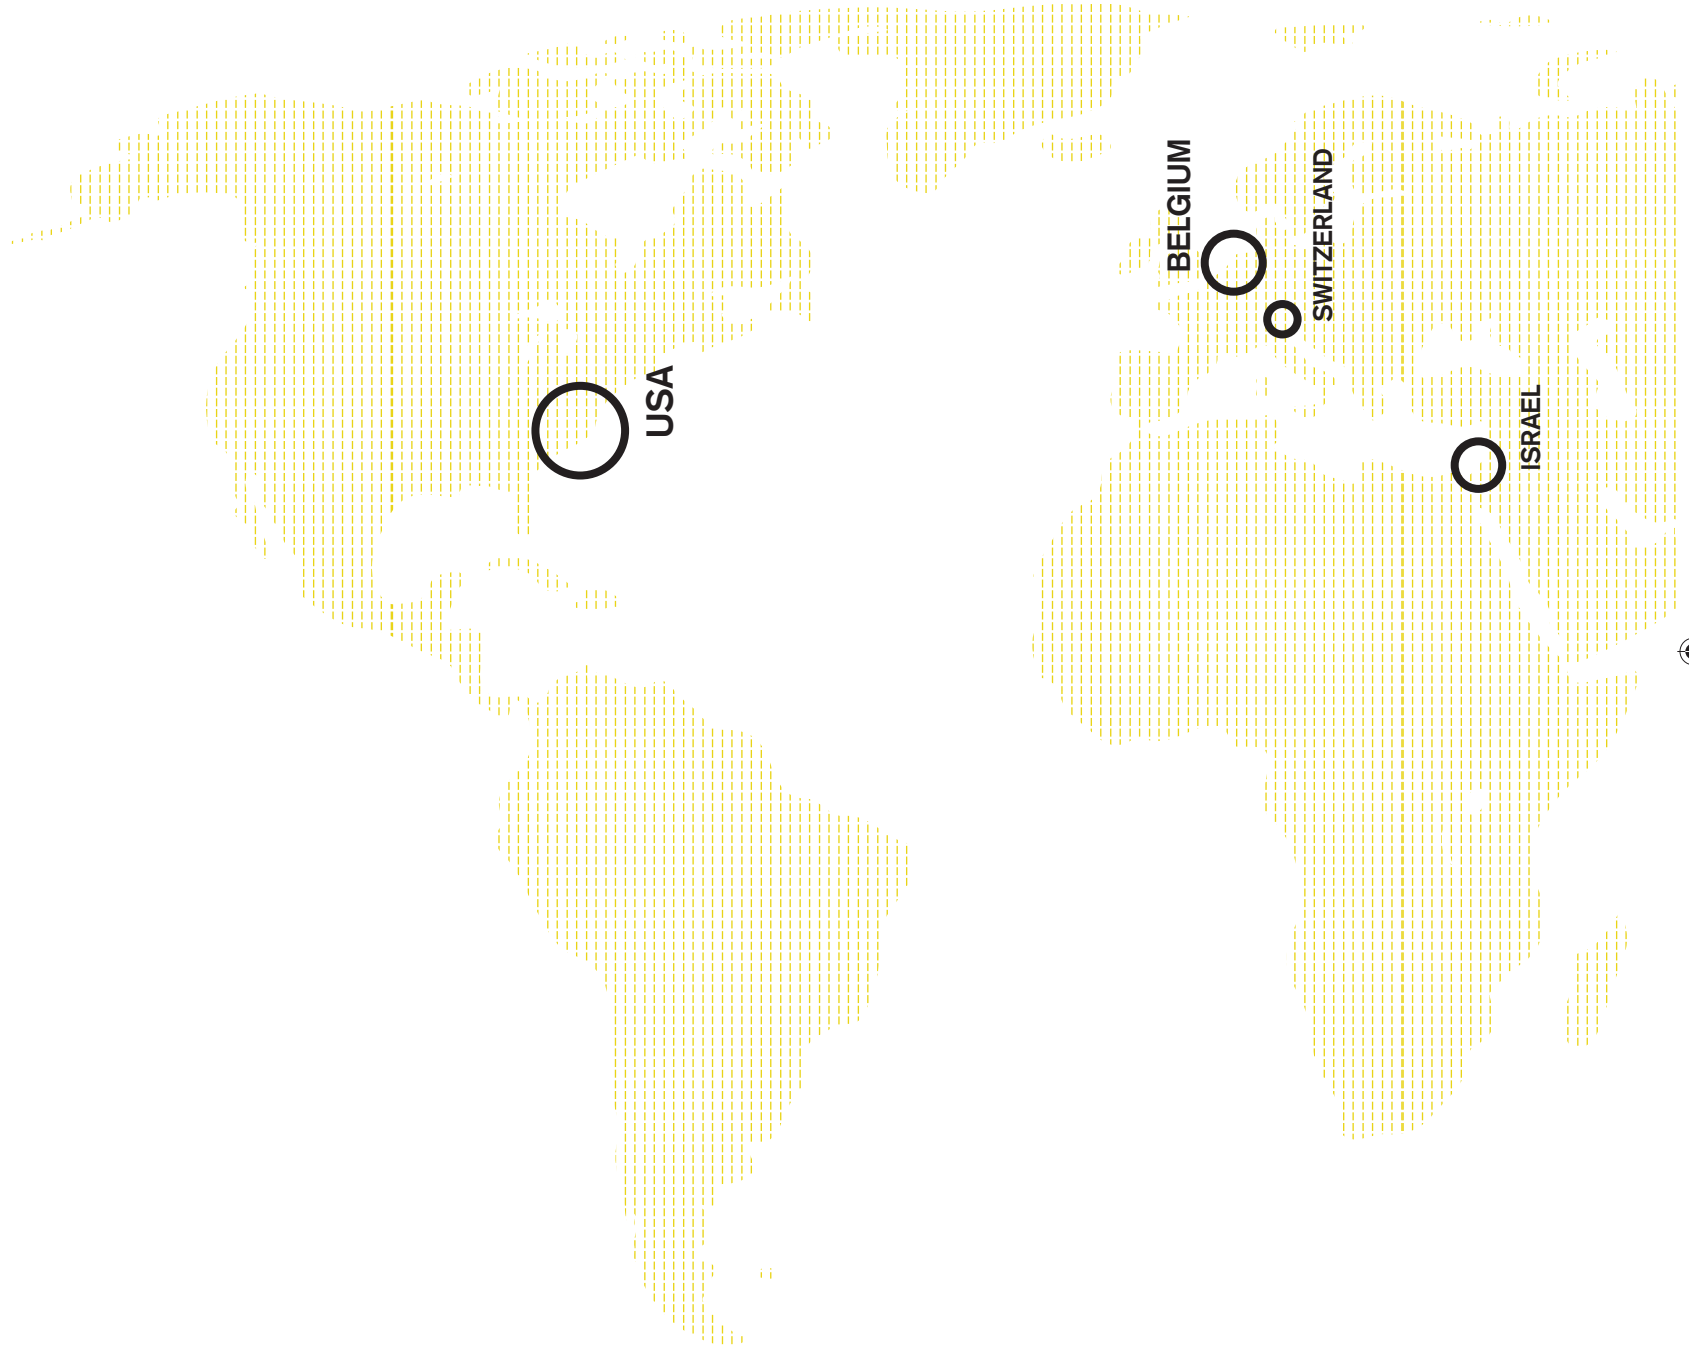

### **Durable Flexibility**

In addition to minimal design, CARVART's glassWALLS products focus on durability and simple adaptation/reconfiguration over time to truly promote flexible and long-lasting spaces.

### **Design Assistance**

Work closely with CARVART designers throughout the process to select stunning glass products showcased in the appropriate systems. Turnkey project services also available.
