The prominence of using markerglass as wallcladding has continued to grow and evolve as companies seek new ways of working and improved teamwork. Interior walls can be covered top-to-bottom with this full-height solution to enhance meeting places for brainstorming ideas and posting documents. Mosaic wall designs are composed as full or partial walls by selecting standard sizes from glassWALLCLAD, glassBOARDS and glassTACKBOARDS. These products coordinate by sharing frame options, mounting hardware, colors, glass finishes and surfaces.

**GLASS**
Low-Iron Tempered.

**GLASS FINISHES**
Opaque (B).

**SURFACES**
Smooth (S), WriteEtch (W, writable) and Etch (E, non-writable).
Exposed polished edges on Floating Frameless design.

**MOUNTING ORIENTATION**
Horizontal, Vertical or Square. Standalone or side-by-side. Full-height, floor-to-ceiling and wall-to-wall glass. Combine glassWALLCLAD with glassBOARDS, glassTACKBOARDS and glassMIRRORS for a full wall mosaic.

**THICKNESS**
1/2” including frame.

**FRAME OPTIONS**
Floating Frameless and Flush Frame.

**STANDARD WIDTHS** (inches):
24, 30, 36, 42, 48, and 60

**STANDARD HEIGHTS** (inches):
60, 72, 84, 96, 102, 108, 114 and 120

**FUNCTION**
Writable with markers without ghosting; Smooth (S) and WriteEtch (W) only. Non-Magnetic and Magnetic.

**MOUNTING HARDWARE**
Concealed wall-mounted Z-Clip bracket.

**FRAME FINISHES**
Flush Frame standard in Aluminum or 23 powder-coat colors at an upcharge.

**ACCESSORIES**
Magnetic and adhesive face-mounted Marker Holders, Trays, Erasers and Rare-Earth Magnets.

**CUSTOMIZATION**
Special sizes or finishes available upon request.

**WARRANTY**
10-year product assurance.
Mosaic Walls

Mosaic wall designs are composed as full or partial walls by selecting various standard sizes from glassWALLCLAD, glassBOARDS and glassTACKBOARDS. These products coordinate by sharing frame options, mounting hardware, colors, glass finishes and surfaces.

Features

- Maximize wall coverage side-to-side, floor-to-ceiling
- Mix-and-Match sizes and finishes in a wall mural design
- Premium, tint-free low-iron glass
- Evenly balanced, low-VOC, 100% opaque backpaint
- Broadest selection of size and finish options
- Design standard compatibility with multiple CARVART products
- Produced in America

Specification Notes

- Frosted transparent glass has an inherent colored tint through the product.
- Allow a 1/2” space between the ceiling and the top of a panel in a full height application in order to lift the panel up onto the Z-Clip mount.
- Full height panels will be supplied with a second Z-Clip mount at the lower section of the panel to ensure proper top and bottom attachment against the wall.
- Panels up to 120” may require special considerations to transport into a building which is the responsibility of the dealer and their installer.
- Permanent markers are not recommended as appropriate for glass surfaces.
Details

Offered in two design options and a variety of colors and sizes, glassWALLCLAD details are consistent with other CARVART products for a standardized look and aesthetic throughout a facility.
Details

TOGGLE BOLT ANCHORING AS ALTERNATIVE TO STRUCTURAL BLOCKING IN Z-CLIP ASSEMBLY (Z-CLIPS PROVIDED BY CARVART)

TOGGLE BOLTS PROVIDED BY CARVART; PLEASE SPECIFY AT TIME OF ORDER WHETHER TOGGLE BOLTS ARE REQUIRED

**CARVART IS NOT RESPONSIBLE FOR ANY PULL-OUT OR DAMAGE FROM INADEQUATE ANCHORING IN WALL OR BACKER ASSEMBLIES

**CARVART WILL NOT REPLACE DAMAGED OR BROKEN PRODUCTS THAT RESULT FROM FALLING OR INADEQUATE ANCHORING; CARVART IS NOT RESPONSIBLE FOR ANY ANCHORING OR INSTALLATION

Surfaces

**Smooth (S)** is the most common characteristic of clear glass, prominent in all aspects of everyday life.
- Writable with erasable markers.
- Normal expected glare and fingerprinting.
- Reflective.
- Non-oil absorbing.
- Suggested for horizontal and vertical applications.
- Cleans easily with common glass cleaners.

**WriteEtch (W)** is an innovative surface that resists stains and is non-reflective. The surface is slightly-abraded which results in a softer, uniform frosted appearance.
- Writable with erasable markers.
- Glare and fingerprints are minimized.
- Uniform frosted appearance.
- Non-oil absorbing.
- Recommended mainly for vertical applications.
- Cleans easily with common glass cleaners at a more occasional rate than Smooth glass.

**Etch (E)** is a smudge-proof glass surface that is slightly-abraded and allows for a high degree of light transmission. Its pleasant diffusing of light and imaging through the glass can aid privacy in environments.
- NON-Writable.
- Glare and fingerprints are minimized.
- Uniform frosted appearance.
- Non-oil absorbing.
- For horizontal and vertical applications.
- Cleans easily with common glass cleaners at a more occasional rate than Smooth glass.
