When your presentation space demands a high degree of function and sophistication, glassBOARDS, Sliding Track provide a multitude of options to the presenter. CARVART’s Sliding Track system allows multiple glass panels to slide easily in one direction from the side or in two directions to the center, so numerous glassBOARDS can be used simultaneously or are available to hide sensitive information on a rear panel. Users can post visual materials on magnetic panels and just slide them away during a meeting.

The system is designed to surround flat screen display monitors that mount behind the track so when open, glassBOARDS and the monitor can be used concurrently or when desired, close the doors to hide the monitor behind. glassBOARDS, Sliding Track can mount within an enclosed room cavity or simply hang from an overhead soffit to add appeal and versatility to your conference rooms. Offered in a variety of colors and sizes, this solution is an upscale design for facilities looking for progressive innovation.
