Cubicles
>
chpLENCLOSE
With six unique cubicle solutions, this robust commercial bath offering provides a wide variety of solutions for designers to specify and customize. While CARVART’s cubicles come in a range of materials that provide endless color and design options; hygiene, function and quality remain equally important in the commercial bath market. CARVART’s glassBOX (T and F types) and chpIBOX are products that come in several standard heights and focus on component flexibility and low maintenance. glassENCLOSE and chpIENCLOSE focus on the same qualities but come in a completely flush and clean aesthetic. All the products are manufactured to withstand harsh environments and are designed in a way that makes them fundamentally low maintenance and easy to clean.

The systems are all detailed in a way that maximizes privacy and considers inherent function equal priorities to design and aesthetics. Configurations and layouts enable a large degree of customization while still focusing on repetitive, optimized manufacturing processes that bring cost down. The systems are designed with installation in mind. Connections and mounting details are made to accommodate field conditions and maintain a large degree of flexibility and tolerance.
# Specifications

**CUBICLES > chplENCLOSE (CENC-F)**
The chplENCLOSE's completely flush design can be at full height or kept short of the ceiling. Door hardware is fully concealed and installed in the thickness of the material, while dividers are back-fastened to maintain a continuous sightline. Supporting legs conveniently accommodate two different heights to meet ADA requirements. Additionally, the top fascia that conceals the stabilizing profile has the option of a LED indicator light showing occupancy. The chplENCLOSE balances a minimal, easy-to-install design with superior engineering to accommodate large tolerances.

### Applications
Commercial shower enclosures and bathrooms in airports, offices, entertainment venues, sports clubs/facilities, gyms/spas, administrative buildings, hospitality.

### Configurations
Repetitive typical cubicles, corner conditions, ambulatory cubicles, stand-alone solutions, privacy screens.

### Function
Self-closing doors, in-swing and out-swing doors, static privacy screens and pilasters.

### chPL Types
Standard high-pressure phenolic laminate.

### chPL Finishes — Refer to Finish Chart

### Surfaces
Smooth/Flush. Textured.

## chPL Thickness
Refer to local code and structural requirements. Accommodates 9/16” Nominal.

### Hardware Dimensions
- **Rear pivot profile**: 1-7/8” (W) x 2-7/16” (D)
- **Stabilizing profile**: 2-3/16” (D) x 2-5/8” (H)
- **Typical leg**: 3” clearance (floor to bottom of panel)
- **ADA-Compliant Leg**: 9” clearance (floor to bottom of panel)

### Hardware Materials/Finishes — Refer to Finish Chart
- Satin Anodized Aluminum, Titanium, Brilliant, Black Anodized Aluminum.

### Widths — Maximum Range (inches):
- **Fixed chPL Panels/Dividers**: Maximum 64-7/8”
- **Doors**: Maximum 42”
- **Max. Overall Lengths (total cubicles)**: Unlimited.

### Heights (inches):
- **System Height**: 120”

### Mounting Fasteners
Final anchoring means and methods are client-directed or based on installers intent. Mounting fasteners and anchors to be supplied by others. CARVART advisory available.

### Weight & Structural Loads — Consult local engineer for structural codes and requirements
Cubicle system is floor mounted; weight per linear foot available upon request and on a per project basis. Linear per foot weights based on final chPL type. Privacy screen weight is dependent on final chPL type and wall mounting is per installer direction. Refer to CARVART for technical consultation.

### Add-On Design Options — Per specification and upcharges apply
- LED occupancy indicator
- Standard pull, minimal pull, ADA pull
- Additional coat hooks
- Privacy screen configurations
- Two Leg Height: 3” (standard) and 9” Latch plate

### Value-Added Benefits
- Non-porous materials maintain hygienic environments
- Wide range of height, accessory and configuration options
- Minimal look with concealed hardware
- System durability and long-term integrity
- Turnkey project services
- Integrated privacy
- ADA-compliant and accessibility-sensitive products

### Customization
Repetitive custom dimensions per run, chPL finishes, layouts, divider depth, pivot location on doors, accessory coordination, ADA stall layouts, pilasters.

### Installation
chPL panels come cut to size based on field dimensions and shop drawings. Client-supplied anchors and fasteners. Requires trained and competent carpenter industry professionals. Installation instructions, assistance and training available at time of order.

### Hardware Warranty — 1-year limited warranty
For more info, contact CARVART Sales Advisory Team at quotes@carvart.com or call us at 212 675 0030.
chpENCLOSE showcases a completely flush front with no exposed mounting hardware that can be installed full height or kept short of the ceiling.

Accessibility and user needs

**CLEARANCES**

**EXTENDED LEG**

Standard components like legs that support dividers are also available in ADA-compliant sizes. When limited space is available in bathrooms, 9" legs can be selected so ADA stalls can meet code. CARVART's doors are available with a clear space of 36" and can be customized based on code and space requirements.

**ACCESSORIES**

**ADA LADDER PULL**

CARVART offers ADA-compliant accessories like pulls and can coordinate with divider panel accessories so that the full spectrum of user needs is met within a bathroom configuration.
Standard divider layouts: Accessories

CARVART offers a standard library of bathroom accessories that can be selected and configured according to local code and bathroom needs. Selecting these tested configurations will greatly improve lead time on divider manufacturing.
Hygiene and Maintenance

**DESIGN**
All of CARVART’s cubicle products are designed in a way that limits dirt and grime collection. Flat and flush surfaces ensure this is possible and allow for easy cleaning.

**DURABILITY**
CARVART products are assembled and designed in a way that ensures the quality and integrity of the system and individual components will last for years. Joints and connections that allow for adjustment over time and consider high traffic environments inherent to the products ensures that the life and integrity of CARVART’s cubicles will not degrade over time.

**MATERIALS**
Glass and chPL naturally prevent the collection of bacteria and grime making them ideal not only for maintenance but also for project types like gym and health care facilities. CARVART’s selection of non-porous materials and their incorporation into the standard designs highlights a focus on long-term durability and adherence to facility quality and integrity.
Options: Pulls and Legs

- **STANDARD FLUSH LOCK/LATCH** (NO PULL, DOOR REMAINS AJAR FOR OPERATION)
- **ADA LADDER PULL + FLUSH LOCK/LATCH**
- **EXTENDED 9" ADA LEG**
- **SURFACE-MOUNTED LEG**
Options: Privacy screens
