glassPOST
CARVART’s Portable series consists of two unique options, both of which cater to flexible, open spaces that require adaptable dividers, enclosures and storage components. The glassCUBE and glassPOST are highly flexible, easy to install and maintain a minimalist aesthetic. These space dividers and enclosures are free-standing and demountable, which facilitates creating spaces cohesive in both design and function. Additionally, these products are fully compatible with CARVART’s Slim and Simple Office Fronts solutions.
Types

**glassCUBE**
(GW_CUBE)

CARVART’s glassCUBE is a perfect solution for spaces that require flexible layout options while maintaining a sense of privacy. This freestanding solution is unique, as it requires minimal coordination efforts and architectural anchoring. Building renovations are made easy with this system, and facility managers have the freedom to reconfigure post-construction, without engaging contractors. The easily adjustable accessories can accommodate display walls in public receptions or lounge areas, dynamic work spaces, and retail spaces requiring storage. Like the glassPOST, accessories include shelves, cabinets, drawers and markerboards.

**glassPOST > Ceiling Mount**
(GW_POST)

CARVART’s glassPOST can serve as both as a ceiling-mounted spatial divider, as well as a wall-mounted storage or display wall. The system is perfect for dynamic spaces subject to constant changes, as it does not require any architectural anchoring. Like the glassCUBE, the glassPOST has a wide variety of accessory options, all easy to install and remove by the end-user. Like the glassCUBE, accessories include shelves, cabinets, drawers and markerboards.
